National Concrete Pavement Technology Center

PUBLICATION SNAPSHOT

From pavement construction to preservation, the National Concrete Pavement Technology Center has published numerous guides, reports, and technical summaries on a variety of concrete-related topics, as illustrated below.

Concrete Overlay Repair and Replacement Strategies

December 2024

Concrete Pavement Preservation Guide (Third Edition)

August 2022

Quality Control for Concrete Paving: A Tool for Agency and Industry

December 2021

Integrated Materials and Construction Practices for Concrete Pavement: A State-of-the-Practice Manual (Second Edition)

May 2019

Guide to Concrete Overlays (Fourth Edition)

November 2021

Use of Industrial Byproducts in Concrete Paving Applications

June 2024

Use of Recycled Concrete Aggregate in Concrete Paving Mixtures

February 2022

Trends in Total Cementitious Content of State DOT Concrete Paving Mixtures

December 2024

Blended Cements for Next Generation Paving

December 2024

Accelerating the Delivery of Concrete Paving Projects

December 2024

Engineered Pavement Foundations and Field Verification of Design Inputs

December 2024

Accelerating Concrete Overlay Construction: A Case Study

December 2024

Uniting public agencies, industry, and researchers around the country to address priority needs and advance concrete pavement technology
